First of all, VNECO 10 Electrical Construction Joint Stock Company would like to send you our warmest greetings, best wishes for your health and sincere thanks for your continued interest, cooperation and support over the past years.

Established in 1985, VNECO 10 is one of the key member units of Vietnam Electricity Construction Joint Stock Corporation (VNECO). Over nearly four decades of development, we have constantly strived to innovate, improve management capacity, invest in modern equipment, and train high-quality human resources to best meet the increasingly stringent requirements of the market.

Currently, the Company operates in many fields, including:

- ullet Construction and installation of electrical works, transformer stations and transmission lines distribution of electricity up to 500kV
- Construction of civil, industrial and technical infrastructure works
- Production of prestressed centrifugal concrete columns of all kinds for the electricity and telecommunications industries
- Mechanical processing and hot-dip galvanizing of metal products used in the electricity, telecommunications and construction industries

With a team of skilled engineers and workers and a system of modern, synchronous production and construction equipment, VNECO 10 is committed to providing customers with **high-quality products and services**, **on schedule**, **ensuring safety and economic efficiency**.

We understand that the success of VNECO 10 today and in the future is the result of a sustainable and trustworthy cooperative relationship with our customers and partners. Therefore, we always put "Trust" first, taking "Quality - Safety - Efficiency" as the guiding principle in all production and business activities.

In the context of the energy and infrastructure industry developing towards modernity and sustainability, VNECO 10 is ready to accompany you to create new values, contributing to the development of the national power system and the country's technical infrastructure.

We hope to continue to receive your trust and valuable cooperation in the coming time. Best regards!

- Affirm outstanding changes with a specific implementation roadmap
- Proactively apply initiatives to build a foundation for sustainable growth.

Reputation & Responsibility

- Responsibility for each product, project & decision.
- Reputation built on customer trust

HISTORY OF FORMATION

1985

Quy Nhon Centrifugal Concrete Structure Factory was established by Power Line and Station Construction Company 3 (Ministry of Energy) in March 1985.

1988 - 1991

1988 _ Quy Nhon Centrifugal Concrete Enterprise was established under Decision No. 839/NL/TCCB dated July 7, 1988 of the Ministry of Energy, on the basis of reorganizing Quy Nhon Centrifugal Concrete Structure Factory;

1991 _ Renamed Quy Nhon Centrifugal Concrete and Power Construction Enterprise, under Power Construction Company 3

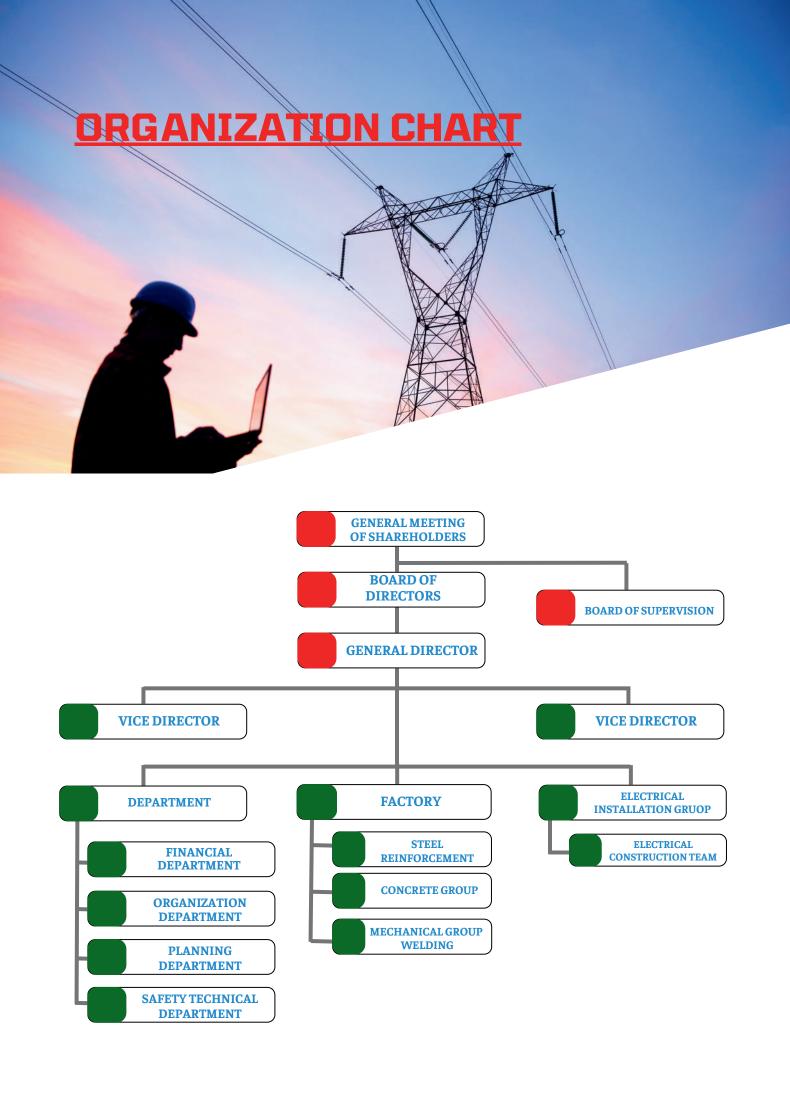

2003

Power Construction Company 3.10 was established under Decision No. 2426 QD/XLĐ3-TH dated May 10, 2003, on the basis of reorganizing Quy Nhon Centrifugal Concrete and Power Construction Enterprise.

2006

3.10 Electrical Construction Company changed its name to VNECO 10 Electrical Construction Joint Stock Company.

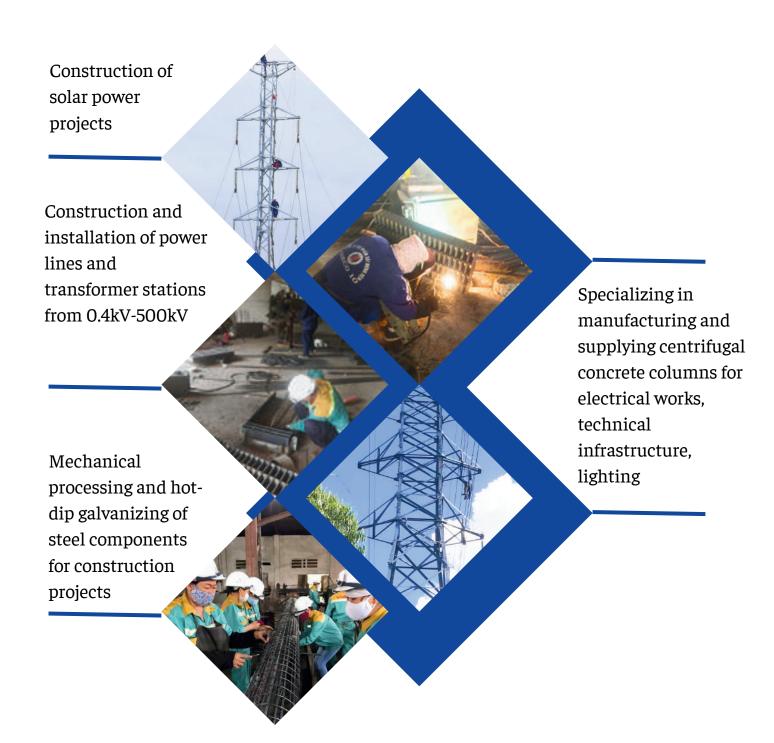

Unity is strength - That is the spirit that is always built in each employee of VNECO 10, together overcoming challenges to conquer new heights.

Each enterprise has its own culture. At VNECO 10, the company's Board of Directors always aims to build a good working environment in both material and spiritual aspects, creating conditions for all members of VNECO 10 to develop comprehensively.

In addition to welfare policies, salaries, bonuses, good training and treatment, VNECO 10 Electrical Construction Joint Stock Company also focuses on taking care of the health and safety and life of the entire family of the company's employees.

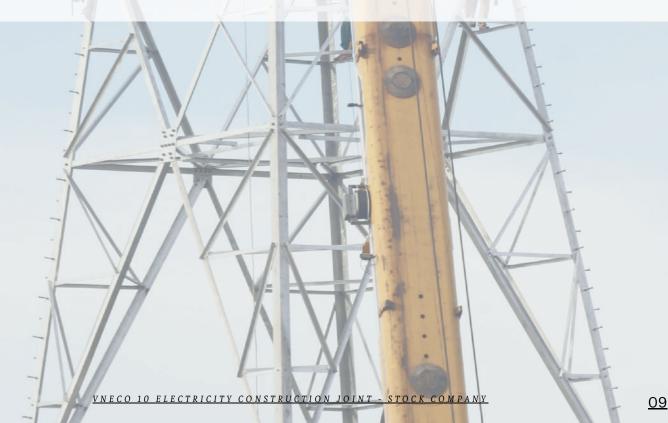

FIELD OF ACTIVITY

VNECO 10 understands that, in addition to modern machinery and equipment, the human resources are the soul for the strong and sustainable development of the company.

In addition to professional knowledge, VNECO 10 also focuses on training all employees in communication skills, teamwork skills as well as a high sense of responsibility when constructing projects for customers. VNECO 10's motto when recruiting is to meet the conditions of honesty, experience, responsibility, friendliness along with seniority in the profession to ensure the highest quality projects.

EQUIPMENT CAPACITY

In order to provide customers with the best quality services, in recent times, VNECO 10 Electrical Construction Joint Stock Company has invested in many new, modern and high-capacity machinery and equipment manufactured by famous brands in the world.

Our machinery and equipment not only improve productivity and performance but also bring safety to users through strict machinery usage processes with the policy of "Safety is paramount" in labor.

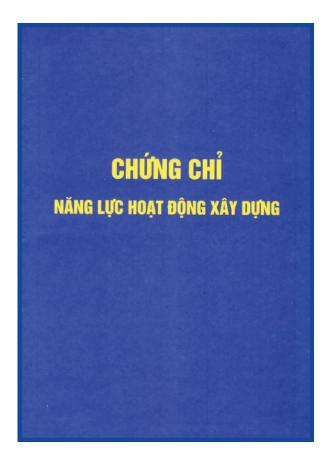

After 40 years of establishment and development, VNECO 10 Electrical Construction Joint Stock Company has achieved many successes and has been trusted by many partners and customers.

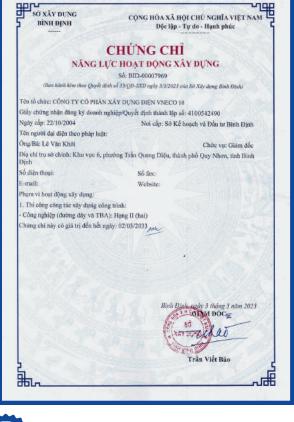

Currently, VNECO 10 continues to provide services for construction and installation of power grids and transformer stations up to 500kV, manufacturing steel structures and galvanized mechanical products, and manufacturing centrifugal reinforced concrete electric poles.

PROFESSIONAL COMPETENCIES

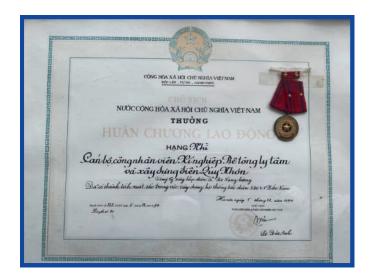

- 1. Certificate of construction operation capacity No.: BID-00007969, Issued by Binh Dinh Provincial Department of Construction, Operating in the field of construction works: Power line and substation industry Grade: II
- 2. Certificate of eligibility for quality standards for the scope of activities:

 Construction of power grids and electrical transformer stations, manufacturing of steel structures and galvanized mechanical products, production of centrifugal reinforced concrete electric poles.

ACHIEVEMENTS

LABOR MEDAL CLASS II

LABOR MEDAL CLASS III

TYPICAL PROJECTS

VNECO 10 has implemented many projects nationwide such as:

- Trạm biến áp 500kV Duyên Hải
- Trạm biến áp 220kV Phù Mỹ
- Đường dây 220kV Xekaman 1 (hatxan)-Pleiku 2
- Đường dây 2 mạch 220kV từ NM điện mặt trời Phù Mỹ đến TBA 220kV Phù Mỹ
- Đường dây 220kV Krông Buk Nha Trang (mạch 2)
- Trạm biến áp 110kV Đông Hòa
- Trạm biến áp 110kV Krông Ana 2
- Trạm biến áp 110kV ChưPưh và đấu nối
- Trạm biến áp 110kV Đăk Hà
- Trạm biến áp 110kV Tây Sơn và đấu nối
- Đường dây 110kV Sông Cầu 2 Quy Nhơn
- Đường dây 110kV Bờ Y
- Đường dây 110kV Tuy Hòa 2 Phú Hòa
- Đường dây 110kV từ TBA 110kV Nha Trang đi TBA 110kV Ninh Hòa
- Đường dây 110kV Quảng Ngãi Đức Phổ -Tam Quan
- Nhà máy điện mặt trời điện lực Miền Trung
- Sửa chữa lớn các công trình Truyền tải khu vực miền Trung
- Đường dây và TBA 35kV Thủy điện Đồng Mít
- Hoàn thiện lưới điện THA khu vực phía
 Nam huyện Phù Cát tỉnh Bình Định năm
 2025
- XDM và cải tạo lưới điện trung hạ áp sau tiếp nhận HTX Ân Đức huyện Hoài Ân tỉnh Bình Định năm 2025

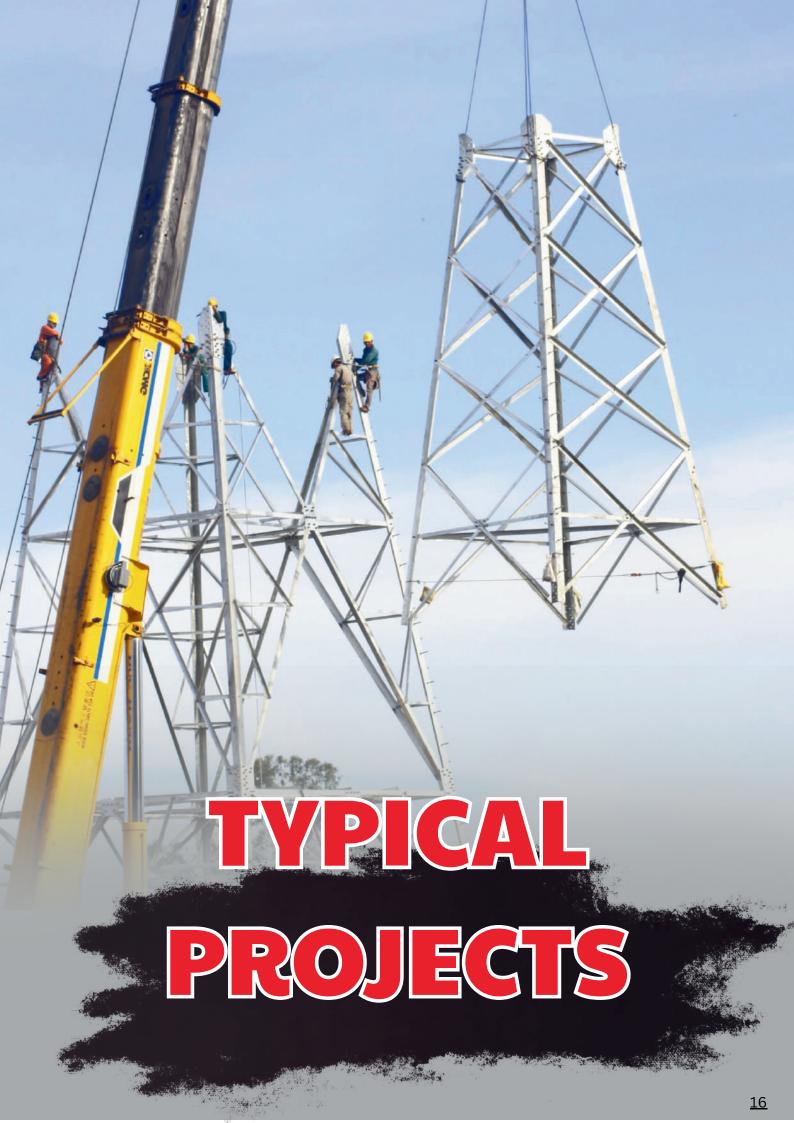

"VNECO 10 ELECTRICAL CONSTRUCTION JOINT STOCK COMPANY ALWAYS ATTACHES IMPORTANCE TO IMPROVING PRODUCT QUALITY AND CONSTRUCTION SAFETY FOR ALL PROJECTS."

We understand that the quality of the project is the decisive factor for the life and time of use of the project. With experience in the field of manufacturing centrifugal concrete poles and constructing electrical works, we always maintain quality management and ensure a high level of assurance.

We coordinate with customers, partners and other contractors to ensure that we meet the expectations of customers and businesses on the quality of the project when completed. By putting quality first, investors will be extremely satisfied when receiving completed projects that are durable over time.
